The Artist's print for the "Alegre" model 49820P8 includes our optional 8ft full-width covered porch, horizontal lap siding, grid windows, a 14ft dormer with "wings", boxed windows and corners and our 4ft recessed sidewall porch with 15Lite entry door.

# 'The Alegre'

Model 49820 w/P8 Porch, 1,937 Sq. Ft.

Look at how adding a few options can change the appearance and function of our La Casa homes. Here is the same "Alegre" model as shown on the opposite page but with our 8ft full width covered porch. Note that the plan drawing shows that we replaced one window with a 36 x 80 passage door providing easy access to the porch from both family room and kitchen. We also added our 4ft recessed entry and entry closet at the standard front door location. These and many other design changes are readily available for your selection on nearly any plan we build. Show us a simple drawing of your home site and we'll help you create the most desirable features to match your surroundings.
