

***“Game Time”***

*Home entertainment takes on a new dimension in this plan. There’s even room for that big screen TV you have been dreaming of, and each room seems big enough to complete a forward pass. You may wish to add our optional computer center in the den or convert that room to a third bedroom with a single door entry and wardrobe closet instead of the standard archway. The corner porch is standard and you may add any of our optional end wall porch options.*

**MODEL 52704 1,358 Sq.Ft.**

This artist’s print shows our model 52704 “Game Time” with optional deluxe porch accents on a hip roofed porch with gable corbel, a 14 ft sidewall dormer with wings, columns and lap accents and a typical site-built garage.
