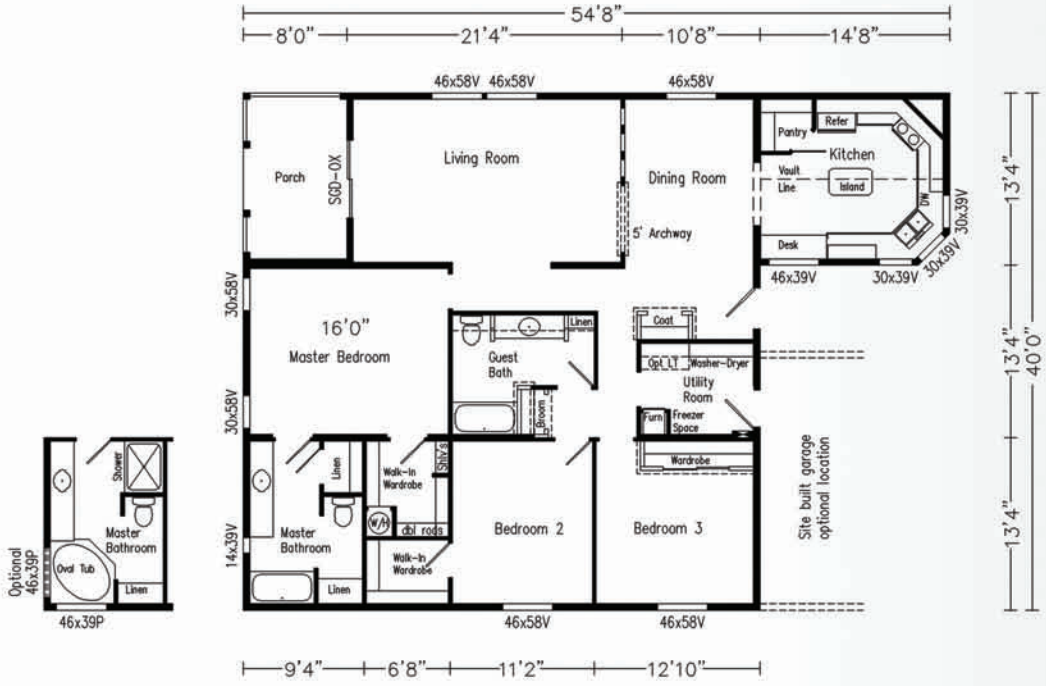
'Del Norte 810'

Model 54810, 1,685 Sq. Ft.



Alternate model 54811 (no porch) 1,685 sq. ft.
Alt. model 54812 (Family rm-no porch) 1,792 sq. ft.

Front yard and rear yard entries solve the riddle for those hard-to-fit properties requiring minimum side yard setbacks thus allowing any of our "del Norte" plan variations to work well on most 50ft wide residential properties. Pay special notice to the ample built-in storage components, the well placed traffic patterns and spacious room dimensions in all areas of the home. Choose the "del Norte" 810 if you desire a covered porch, the 811 for a secluded patio or the 812 with 26'8" living room. Each plan provides affordable elegance suitable for any residential neighborhood.

The artist's print shows the cut corner kitchen del Norte plans with optional lap siding wainscote, boxed windows, Georgian entry door and a typical site-built garage.
