

**“West View”**

*We’ve stacked the deck for you with this home. It borrows the features of our best selling two section plan, captures the glamour of a very popular triple wide kitchen and adds a cut corner view to the dining room making this an exceptional choice specially designed for a full sized site-built garage. The corner porch is standard and works nicely with any of our end wall covered porch options.*

**MODEL 56728 1,454 Sq.Ft.**

Our “Westview” plan is shown in this artist’s print with deluxe porch accents on our optional 8 ft covered porch, lap siding, boxed windows and a 14 ft sidewall dormer with wings and columns. Note also the two optional windows are added to the dining room cut corner.
