

“Highland Estate”

Whether on your country hilltop property or your residential city street this plan offers great views seldom found in front and rear bedroom models. This one is designed for driveway and garage access from the street with styling that blends well into any residential neighborhood. The kitchen features a huge island bar and full wall of pantry storage and is nicely separated from the living room by texture finished bridged openings. Also note the standard coat, broom and linen closets.

MODEL 56741 1,493 Sq. Ft.

Our “Highland Estate” plan is shown in this artist's print with optional prism dormer, deluxe exterior package, nominal 4:12 roof pitch with architectural shingles and a typical site-built garage.
