

***“Vintage Value”***

*If you’re looking for spaciousness this one is a classic. The huge living and dining rooms are matched by the three oversize bedrooms each with its own walk-in closet. The corner pantry is just one of several storage areas built in the standard features and an oversize garage can be placed at the utility entrance. A best value package of epoch proportions.*

*MODEL 60730 1,600 Sq.Ft.*

Our artist’s print shows the Vintage Value with optional grid windows, typical site-built garage, a 14-ft side wall dormer with our deluxe exterior package combining lap accents, columns and shutters in a very attractive but inexpensive residential appearance.
