

'La Casa Real'

Model 60807, 2,388 Sq. Ft.

Real space, real 10 foot volume ceilings, real storage capacity, real flexibility and real privacy in all the bedrooms make for real living in this really big "La Casa" model home. You may convert the den to a 4th bedroom if you like but if you need a 5th bedroom or a third bathroom, see the "Casa de Cinco" plan on the opposite page. No matter how you decide to have it, we can make your dreams become reality with real quality for a very realistic price.

The Artist's print shows the "La Casa Real" front door side view. On this home we show you the standard recessed front entry, lap siding, shutters, and a 20ft dormer with columns. Also shown are the optional clerestory windows above the standard two kitchen windows on the end wall. For a rear side view see the "de Cinco" print on the opposite page.
