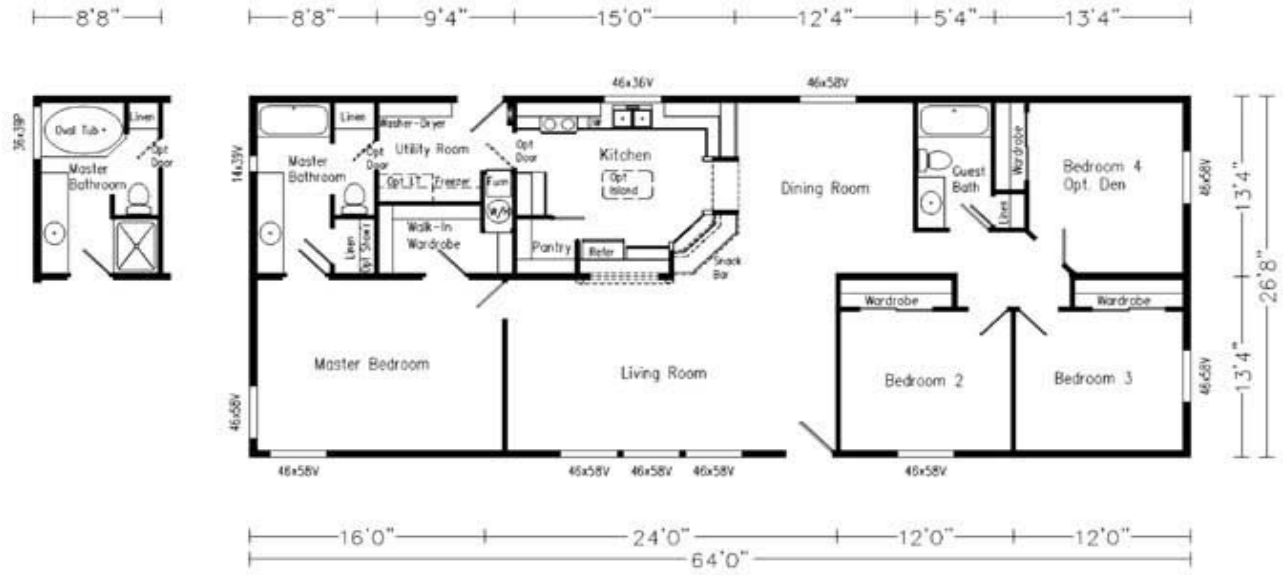
"Sincerely Yours"

This very popular plan design combines our signature kitchen features with spacious room sizes created for large family living. The raised counter snack bar serves as a gathering place beneath a textured bridge and lighted soffit for casual dining and conversation. And the utility provides space for both freezer and deep sink laundry tub or other storage cabinet options. Some folks convert bedroom 4 into a den or media room while others do the same with bedroom 2. A full sized home to call your own and fulfill your fondest dreams.

MODEL 64745 1,706 sq.ft.



HB NW
